FROM: Assistant Director, Personnel

SUBJECT: University Contacts for Career Corps Recruitment

REFERENCE: Letter, Deputy Director Office of Training, dated  
7 August 1951, "A Program for the Establishment of  
a Career Corps in CIA".

1. The proposed Career Corps Program was distributed to each of you with the above reference letter. Section II A of the plan outlines the procedure to be followed in recruiting qualified candidates from the universities and colleges listed in Appendix B.

2. This is a recruiting project that has a most important long-range value to the Agency and therefore, we are most anxious that the CIA contact in each of the proposed schools meets the requirement suggested in Section II A. Without effective contacts we cannot hope to discover the type of potential candidates we need for this program.

3. We need your help - Would you and others in your shop consider the list of universities and colleges in Appendix B of the proposed program and give us the benefit of your knowledge of individuals in these institutions who would meet the suggested requirements for contacts?

4. We would like to have your suggestions by 27 August 1951 in order that we can start on the necessary ground work to make this recruiting a success.

/s/  
F. TRUBEE DAVISON  
Assistant Director
